**Elective List:**

**Area – Finance:**

**II Semester**

1. Financial Services
2. Banking and Insurance Management

**III Semester**

1. International Financial Management
2. Equity Research and Portfolio Management
3. Mergers and Acquisitions
4. Taxation Management
5. International Financial Reporting Standards

**Area – Human Resource Management:**

**II Semester**

1. Human Resource Development
2. Organisational Change and Development

**III Semester**

1. Strategic Human Resource Management
2. Labour Welfare and Industrial Relations
3. Organisational Dynamics
4. Managing Interpersonal Effectiveness

**Area – Marketing Management:**

**II Semester**

1. Services Marketing
2. Consumer Behaviour
3. Media Management

*S. B. B. B.*

AI-03  
2018-19

**III Semester**

1. Retail Management
2. Digital Marketing
3. Sales and Distribution Management
4. Brand Management

**Area – Systems:**

**II Semester**

1. Enterprise Resource Applications
2. Knowledge Management and Information Systems

**III Semester**

1. Software Project Management
2. Information Security Management System
3. Data Warehousing and Data Mining
4. E - Governance

**Area – Production:**

**II Semester**

1. Lean Manufacturing
2. Technology Management

**III Semester**

1. Project Management
2. Supply Chain Management
3. Total Quality Management
4. Business Process Re-engineering and Value Engineering

## CURRICULAR COMPONENTS

### 1. Internship Training & Major Project Work:

a) Full time students will take up Internship training at the end of II semester. The report of the Internship should be submitted to and reviewed by the concerned faculty members. Evaluation will be done on an internal basis. The students will be attending the Viva voce examination during the III semester.

b) Full Time students will do Major Project for the period of 8 weeks during IV semester. The review report of the Major Project should be submitted to the concerned HOD after complete discussion with the faculty guide. Thereafter the students will appear for a viva voce examination during the IV semester.

In case of students who fail in Internship / Major Project work, can appear for the viva during their subsequent semesters.

The criteria's considered for assessing the Internship training

Attendance	-	10 Marks
Observation skill	-	10 Marks
Timely report	-	10 Marks
Maintaining of Record	-	10 Marks
		-----
Total (Internal)		40 Marks
		-----
Presentation (External)	-	40 Marks
Convincing Ability	-	20 Marks
		-----
Total (External)		60 Marks
		-----

The criteria's considered for assessing the Major Project work:

Application of Ideas, concepts	-	10 Marks
Timely report	-	10 Marks
Use of appropriate Statistical tools	-	10 Marks
Convincing ability	-	10 Marks
Record	-	10 Marks
		-----
Total (Internal)		50 Marks
		-----
Viva Voce		50 Marks
Thesis		100 Marks
		-----
External		150 Marks
		-----

**3. Internal Assessment:**

Internal assessment will be the responsibility of the concerned faculty and is done subject-wise. The internal assessment marks for each subject will be distributed as follows:

Assignments	-	5 Marks
Attendance	-	5 Marks
Activity based assessment	-	5 Marks
Seminar	-	10 Marks
-----		
Total	-	25 Marks
-----		

**4. Executive Communication and Skill enhancement:** This paper will be offered in the first semester and will be evaluated on an internal basis. The criteria considered for this course is as follows

Reading skills	-	05 marks
Presentation skills	-	15marks
Team Building skills	-	10 marks
Decision making skills	-	10 marks
-----		
Total	-	40 marks
-----		

**5. Self Study Paper:**

Students will have one self-study paper in the IIIrd and IVth semester, which will be guided by the staff members. TEE assessment for the self study paper will be valued on an internal basis.

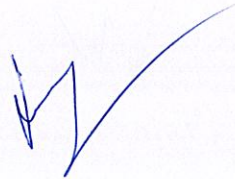

The criteria considered for this course is as follows

Assignment	-	10 marks
Mini Project	-	20 marks
Activity based assessment	-	10 marks
-----		
Total	-	40 marks
-----		

**6. Electives:** Students have to opt any two specializations among Finance, HR, Marketing, Systems and Production. The students will continue their dual specialization by choosing four electives from each specialization till the end of their course.

**8. Practical:** Practical Statistical software lab practical - IBM Business Analytics will be offered in the first and second semester. The students will take up the exam at the end of the semesters. The criterion's considered for assessing the internal for Practical:

Observation note	-	15 Marks
Record note	-	15 Marks
Attendance	-	10 Marks
-----		
		40 Marks
-----		

**Dr. GR DAMODARAN COLLEGE OF SCIENCE (Autonomous), COIMBATORE**  
**MBA DEGREE**

**Effective for the students admitted during the academic year - 2018 – 19**

**FIRST SEMESTER**

**CORE: MANAGEMENT PRINCIPLES AND PRACTICES**

**Objective :**

To provide an insight on the concepts of management and its applications in organisations.  
To impart knowledge on the new trends in the field of management.

**UNIT – I**

**Management concepts:**

Management – Arts, Science and Profession – Management Process – Scope – Evolution of Management – Managers – Kinds and their Role – Management and Society – Social Responsibility and Ethics – Global and Comparative Management.

7 hrs

**UNIT – II**

**Planning and Decision making:**

Planning – Nature – Purpose – Planning Process – Planning Premises – Types of Plans  
Objectives – Strategies & Policies – Nature & Purpose – Strategic planning Process – Kinds of Strategies & Policies – Decision Making – Need - Process - Decision Making in Organization

7 hrs

**UNIT – III**

**Organizing:**

Organizing – Formal and Informal organization – Organization divisions – levels – Span of Management – Principles of Span of Management – Factors affecting effective Span – Structure and process of Organizing – Basic Departmentation - Types

7 hrs

**UNIT – IV**

**Authority and Coordination:**

Line and Staff Authority – Authority & Power – Concepts – Functional Authority – Benefits & limitations of Staff – Decentralization of Authority – Delegation of Authority – Co- ordination functions in Organization – Techniques of Co ordination

7 hrs

**UNIT – V**

**Controlling:**

Basic Control process – Critical control points and standards – control as a feedback system – real time information & control – feed forward control – requirement for effective control – control techniques and Information Technology

7 hrs

**Total Hrs 35**

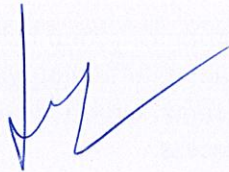

**Reference Books:**

**National:**

1. Principles and Practices of Management – L M Prasad – Sultan Chand & Sons – Edition 2006
2. Management Principles and Practices – Parag Diwan – Excel Books – First Edition
3. Management Principles And Practice, Srinivasan R, Chunawalla, Himalaya Publishing House, 2<sup>nd</sup> edition

**International:**

4. Management – Ricky.W.Griffin – Biztantra – 8 th Edition 2005 Indian Adaption
5. Principles of Management – A Global Perspective Heinz Wehrich, Harold Koontz – McGraw – Hill International Editions, 2005 10<sup>th</sup> Edition

Dr. G R DAMODARAN COLLEGE OF SCIENCE (Autonomous), COIMBATORE  
MBA DEGREE

Effective for the students admitted during the academic year – 2018 - 19

FIRST SEMESTER

CORE: ORGANISATIONAL BEHAVIOUR

**Objective:** To understand the historical background of organizational behavior, contributing theoretical frameworks and research methodology in OB. The course also provides insight about individual behavioral process, group behaviors and the elements in organizational process.

7 hrs

**UNIT – I**

**Foundation of OB:** Historical background: Hawthorne studies (Illumination studies) -Theories of Management leading to OB – Organisational behaviour responses to global and cultural diversity, challenges of work force diversity and managing diversity-Challenges of OB

7 hrs

**UNIT – II**

**Introduction to Individual Process:** Perception and process – Attribution theory in social perception -Nature and types of Learning – Organisational Citizenship Behaviour - Nature and types of Personality – Nature and types of Attitude at work– Nature and types of Values – Nature and types of Stress

7 hrs

**UNIT – III**

**Introduction to group process:** Foundation of group behavior – Formation of groups – Synergies of group-working – Roles in groups – Factors effecting group effectiveness – Understanding teams – types of teams –Making effective teams. group development and structure –group decision making process – Team development process

7 hrs

**UNIT – IV**

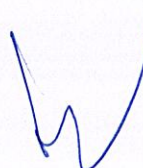

**Power dynamics in organizations** – Nature of power – Bases of power – Direction of flow of power in various types of organizational structures - Politics  
Understanding conflict – Meaning and causes of conflict – sources of conflict at various levels – Managing conflict – styles of handling interpersonal conflict – Negotiation process – Elements and factors affecting negotiation - Negotiation analysis: Suggestions for effective negotiation.

7 hrs

**UNIT – V**

**Leadership and Motivation theories:** Leadership styles and theories – implications and importance- Situational Leadership Model – Managerial Grid Styles – Path- Goal Theory. Transactional Versus Transformational Leadership - Leadership as effective change agents – Emerging leadership issues and capabilities. Basic Motivation Concepts, theories, and its applications – Maslow's Need theory, McClelland (Motive theory), Herzberg (two-factors theory), Alderer (ERG theory), Vroom's VIE theory.

**Total Hrs 35**

**MBA DEGREE**  
**Effective for the students admitted during the academic year – 2018 - 19**  
**FIRST SEMESTER**

**CORE: MANAGERIAL ECONOMICS**

**Objective:** The objective of this course is to sharpen the analytical skills of management students through integrating the knowledge of the economic theory with decision making techniques.

**UNIT – I**

**Introduction:**

Meaning, Nature and Scope of Managerial Economics –Managerial Economics and Business decision-making - Fundamental concepts of Managerial Economics.

Profit Policies –Profit Maximization, Alternative objectives of the firm. - Theories of profit - Accounting profit versus Economic Profit.

7 hrs

**UNIT- II**

**Demand and Supply Analysis:**

Demand and Supply Concepts- Demand theory-Demand determinants- Types of demand-Market Equilibrium-Demand elasticity: Types, Measurement and Factors. Uses of elasticity concept in business decision making.

7 hrs

**UNIT –III**

**Production and Cost Decision:**

Production function with one variable and two variable inputs>Returns to a factor and Returns to Scale-Isoquants –Isocost curves and Ridge lines –Optimum factor Combination –Managerial uses of production functions.

Cost Concepts, Classifications and Determinants-Cost –Output Relationship in the Short- run and Long-run –Cost functions-Economies and Diseconomies of Scale –Economies of Scope –Learning Curve.

7hrs

**UNIT –IV**

**Market structure and pricing:**

Features of and pricing-output decisions in Perfect Competition, Monopoly, Oligopoly and Monopolistic Competition- Pricing methods and practices of modern business firms: Cost-based and demand-based pricing strategies –Price Discrimination.

7hrs

**UNIT- V:**

**Macro economic Analysis:**

Business cycle and Business policies –National Income –Fiscal policy-Monetary Policy-Inflation –Deflation

7hrs

Dr. GR DAMODARAN COLLEGE OF SCIENCE (Autonomous), COIMBATORE  
MBA DEGREE

Effective for the students admitted during the academic year - 2018-19

FIRST SEMESTER

CORE: ACCOUNTING FOR DECISION MAKING

(THEORY: 20% AND PROBLEMS: 80%)

**Objective :** To inculcate the basic financial, management and cost accounting concepts and methods and its application in managerial decision-making.

UNIT – I

**Financial Accounting:** Definition – Accounting Principles – Concepts and conventions. Basics of Accounting: Rules for Debit and Credit, Journal, Ledger, Trial Balance. Preparation of Trading and Profit and Loss Account and Balance Sheet (Problems). Depreciation methods – Straight line and Written Down Value Methods(Problems).

7hrs

UNIT – II

**Financial Statement Analysis:** Objectives – Techniques of financial Statement Analysis – Comparative and Common Size Statement Analysis, Trend Percentage Analysis . Ratio Analysis: Accounting ratios: Liquidity (short-term solvency), Profitability and Turnover ratios- Construction of Balance Sheet- Problems and interpretations.

7hrs

UNIT – III

**Fund Flow Statement Analysis:** Meaning of 'Fund' – Sources and Applications of funds – Statement of changes in working capital -Computation of Fund From Operations – Preparation of Fund Flow Statement.(Problems) -. Cash Flow Statement – Distinction between Fund Flow and Cash Flow Statement.

7hrs

UNIT – IV

**Cost Accounting:** Meaning – Elements of Cost – Cost Sheet – Problems. Budget : Types of budgets – Preparation of Production, Sales, Purchases, Cash, and Flexible budgets-Problems – Zero based budgeting.

7hrs

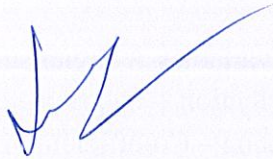

UNIT – V

**Marginal Costing:** Definition – Decision making under marginal costing system – Contribution, P/V ratio, margin of safety, Break-even point – Break-even chart. Problems on computation of Break-even point.

Total Hrs 35

**Reference Books:**

1. S.N.Maheswari, A Text Book of Accounting for Management, Kalyani Publication – 3<sup>rd</sup> Edition, 2012

**Dr. GR DAMODARAN COLLEGE OF SCIENCE (Autonomous), COIMBATORE  
MBA DEGREE**

**Effective for the students admitted during the academic year – 2018 -19**

**FIRST SEMESTER  
CORE: QUANTITATIVE METHODS FOR MANAGEMENT –I**

**UNIT-I : SET THEORY**

**Set Theory** – basic concepts-Set operations (only through venn diagram) – functions(relations)- Linear, Non-linear functions-Graphical representation of functions- constants, variables- notion of mathematical models- concept of trade off notion of constraints. Matrix –definition – basic operations with simple business problems, Cost optimization techniques- EOQ.

**UNIT-II: DATA ANALYSIS AND INDEX NUMBERS**

**Statistics**-Definition, Types. Types of variables – organising data- Descriptive measures. **Data Analysis** – Univariate – Frequency distribution – Ungrouped – Grouped data measures- Measures of central Tendency- Measures of dispersion – Co-efficient of variation.

**Index Numbers**- Basic concept – Simple and weighted index numbers – Types of Index numbers – cost of living index numbers- business index numbers – CPI, WPI, Sensex, Nifty.

**UNIT-III: BIVARIATE DATA**

Distribution –Correlation Analysis - Correlation (Karl pearson's co-efficient of correlation)- Spearman's rank correlation – Regression equations- Problems related to business applications.

**UNIT-IV : PROBABILITY**

**Probability** – Definition- Addition and multiplication rules (only statements) – Simple business application problems-Probability distribution-Expected value concept –Theoretical probability distribution – Binomial – Poisson – Normal distribution –Simple Problems related to business.

**UNIT-V : TIME SERIES ANALYSIS**

Time series analysis: Variation in time series, Trend analysis, cyclical variations, seasonal variations and irregular variations, forecasting errors.

**Total Hrs 35**

A11-15

2018-19

**Reference books :**

**Dr. GR DAMODARAN COLLEGE OF SCIENCE (Autonomous),  
COIMBATORE**

**MBA DEGREE**

**Effective for the students admitted during the academic year - 2018-19**

**FIRST SEMESTER**

**CORE: PRACTICAL - EXECUTIVE COMMUNICATION AND SKILL ENHANCEMENT**

**Objective:** To Equip the students with the necessary knowledge base of Effective Communication System, and to develop managerial, analytical skills such as problem solving and stress management.

**UNIT I – Communication & Listening**

Role of communication in business, Main forms of communication in Business, Communication process, Barriers to communication, Ethics and Communication Modes of Non-Verbal communication. Anatomy of poor listening, good listening Factors contributing to poor listening: Antipathy Towards speaker, Anatomy of poor speaking, Use of silence in Communication,

7 hrs

**UNIT II – Social & Work Place Communication**

Telephoning, Mobile Phones, Teleconferencing - Situation based –accepting/declining invitations, congratulating, consoling, conveying information. Report Writing: Parts of Report, Qualities of Good report, Reports of different kinds –annual report, status report, survey report, proposals, memorandums, interviews, profile of institutions, speeches, responding to enquiries, complaints, summarizing, and strategies for writing.

7 hrs

**UNIT III – Presentation Skills**

Introduction, Features of a good presentation, Use of Visual aids – Oral presentation - Planning, Handling questions, Meeting: Introduction and Meaning, Factors making meeting in effective, Prerequisites for a Meeting, Conducting Meetings, Preparing Minutes, Précis Writing.

7 hrs

**UNIT IV – Business Letters**

Introduction - Format and Layout, E-Mail: Managing the Mail box, Presenting Mail, Common Sense and Etiquette, Writing Skills – Recommendations and Testimonials, Circulars, Memo – Sales Letter – Structure, Methods of drafting, follow up, Banking Correspondence. Application Covering letter, Contents of resume and CV, Interview letter, Offer of Employment, Letter of Acceptance, Resignation Letter, Letter of recommendation

7 hrs

**UNIT V**

**Team building:** Tips for building and managing teams-imparting wisdom on managing cultural diversity at work-strategies to enhance team productivity- team building exercises.

**Developing analytical skills** Conducting brain storming sessions on various current business issues- organizing GDs to analyze the current business trends.

**Problem solving and Decision Making skills:** Importance of the skill-creative problem solving techniques and exercises.

**Developing leadership skills:** Realizing the importance of leadership skills- sharing the leadership qualities and secrets of great leaders and visionaries-leadership games-exercises on risking innovation-exercises on fostering collaboration - exercises on managing conflict- exercises on using diversity.

**Total Hrs 35**

**Dr. GR DAMODARAN COLLEGE OF SCIENCE (Autonomous), COIMBATORE**  
**MBA DEGREE**

**Effective for the students admitted during the academic year - 2018-19**

**FIRST SEMESTER**

**CORE: MARKETING MANAGEMENT**

**Objectives:**

To provide a thorough knowledge on the importance, scope and fundamental concepts of marketing, to expose students to planning, organizing, implementing and controlling of marketing strategies and plans and to impart knowledge on the insights of marketing and the decisions taken under each element.

**UNIT I:**

**Marketing Fundamentals:**

Defining Marketing: Importance and scope of marketing – Exchange and Transactions – Company orientations toward the marketplace – Fundamental marketing concepts, trends and tasks. The nature and contents of a marketing plan. Gathering Information and Scanning the Environment: Marketing Information System – Internal Records System – Marketing Intelligence System – Analysing the macroenvironment factors. Conducting Marketing Research and Forecasting Demand: Marketing Research System – Forecasting and demand measurement.

7 hrs

**UNIT II:**

**Consumer Behaviour & Segmentation:**

Creating Customer Value, Satisfaction and Loyalty: Building customer value, satisfaction and loyalty – Maximising customer lifetime value – Customer Relationship Management – Customer Databases and Database Marketing. Analysing Consumer Markets: Factors influence Consumer Behaviour – Key psychological processes – Managing Business to Business customer relationships – Institutional and Government Markets. Identifying Market Segments and Targets: Levels of market segmentation – Segmenting consumer markets – Bases of segmenting business markets.

7 hrs

**UNIT III:**

**New Product development & Branding:**

Introducing the New Market Offerings: Challenges in New Product Development – Managing the new product development process – The consumer adoption process. Building Strong Brands - Crafting the Brand Positioning: Developing and communicating a positioning strategy – Differentiation strategies – Product Life Cycle marketing strategies . Dealing with Competition: Competitive Forces – Identifying and analysing competitors – Competitive strategies for market leaders, challengers, followers and nichers – Balancing customer and competitor orientations. Setting Product Strategy: Product characteristics and classifications – Differentiation – Product and brand relationships – Packaging, labeling, warranties and guarantees.

7 hrs

**UNIT IV :**

**Marketing Channels & Pricing**

Developing Pricing Strategies and Programmes: Understanding Pricing – Setting the price – Adapting the price – Initiating and responding to price changes. Designing and Managing Value Networks and Channels: Marketing channels and value networks – The role of marketing channels – Channel Design decisions – Channel management decisions – E-commerce marketing practices.

**UNIT V :**

**Promotion mix:**

Managing Mass Communications – Advertising, Sales Promotions, Events, and Public Relations: Developing and Managing an Advertising Programme – Deciding on media and measuring effectiveness – Sales Promotion – Events and experiences – Public Relations. Managing Personal Communications – Direct Marketing and Personal Selling: Direct Marketing – Interactive Marketing – Designing the sales force – Managing the sales force – Principles of personal selling. The Digital Marketing Landscape: Role of Digital Marketing – Emerging Trends – Technology shift – Online ecosystem. Methods of Digital Marketing.

**Total Hrs 35**

**MBA DEGREE**  
**Effective for the students admitted during the academic year -2018-19**  
**FIRST SEMESTER**

**CORE: PRACTICAL: STATISTICAL SOFTWARE LAB**

**Objectives**

The course is designed to provide students with transferable skills, to understand the uses of SPSS, as a tool to summarize and aid in the interpretation of research findings. Students will also learn to use functions of Excel.

**UNIT : I MICROSOFT WORD AND EXCEL :**

Creating , Formatting and designing the document in MS Word - Uses of Excel- Basic Formulas and Use of Functions- Manipulating of Data -using Data Names and Ranges- Filters and Sort and Validation Lists - Managing, Inserting, and Copying Worksheets - Data Analysis Using Charts and Graphs.

7 hrs

**UNIT : II INTRODUCTION TO SPSS:**

Descriptive statistics – measures of central tendency- mean, median, mode, standard deviation, coefficient of variance – charts and graphs – testing of normality-testing of homogeneity- testing of linear relationship(scatter plot)- sample size determination.

7 hrs

**UNIT : III HYPOTHESIS TESTING:**

Conditions for single and two means- one sample t-test-paired sample t-test- statistical inference-Z-Test- F-Test – statistical inference.

7 hrs

**UNIT : IV REGRESSION ANALYSIS:**

Introduction to simple regression analysis- determining the equation of a regression using SPSS- Multiple regression analysis- statistical inference for r-square, adjusted r square and overall F-Test.

7 hrs

**UNIT :V GOODNESS OF FIT AND ANOVA:**

Introduction to chi-square test-chi-square test of homogeneity- chi-square test of Independence- Introduction to ANOVA- one way ANOVA- Two way ANOVA

7 hrs

**Total Hrs 35**

5. Research Methods in Business by Dr.R.Nandagopal, Dr.Arul rajan & Dr.N.Vivek, Excel books, New delhi.

**Dr. GR DAMODARAN COLLEGE OF SCIENCE (Autonomous), COIMBATORE**  
**MBA DEGREE**  
**Effective for the students admitted during the academic year - 2018-19**

**SECOND SEMESTER**

**CORE: OPERATIONS MANAGEMENT**  
**(Theory 80%; Problem 20%)**

**Objectives :** To introduce the concepts of operations Management and help to learn how those concepts are being applied in the industry by working out problems in relevant areas and also by taking mini projects.

**UNIT I :**

**Operations Management** – meaning – importance – Historical contributions – Systems view of OM – Functions of OM – Basic functions – Plant location – factors influencing location – plant layout – product layout, process layout, advantages and limitations – Models of production systems – continuous and intermittent production systems.

7 hrs

**UNIT II :**

**Production Planning and Control** – Meaning – Functions – Aggregate planning (AP) – forecasting for AP – strategies for AP – Master Production Schedule (MPS) – Material requirement planning (MRP) – BOM – MRP objectives – advantages and limitations of MRP – MRP system components – MRP in a changing environment – Planning and controlling system of MRP II – Problems in MRP.

7 hrs

**UNIT III:**

**Capacity requirement planning (CRP)** – capacity planning decisions – An introduction to ERP and ERP packages. Inventory control – Types of Inventory – Safety stock – Re order point – Service level – Inventory control systems – inventory costs – Perpetual – Periodic – JIT – KANBAN – Bottlenecks in implementing JIT in Indian Industry.

7 hrs

**UNIT IV :**

**Inspection and quality control** – Purposes – Control charts for measuring variables – Control charts for measuring attributes – Acceptance Sampling – problems – Quality Circle – An introduction to new concepts such as TQM, Six Sigma concept, ISO 9000.

7 hrs

**UNIT V :**

**Ergonomics** – meaning – importance – Work study – Time study – Motion study – Charts – Standard time – Time study analysis – problem – Job design.

**Total Hrs 35**

**SECOND SEMESTER**

**CORE: QUANTITATIVE METHODS FOR MANAGEMENT - II**

**Objective:** To enable the students to learn the techniques of Operations Research and resource management and their application in business management.

**UNIT - I:**

**Mathematical Models** - Deterministic and Probabilistic - Simple Business examples - OR and Optimisation models - linear programming.

Formulation - Graphical Solution - Dual of Linear Programming Problem - Economic interpretation (No Computation for simplex method).

7 hrs

**UNIT- II:**

**Transportation model** - Initial Basic Feasible solutions – Optimum Solution (only for Non-Degeneracy) - Transshipment model - Assignment model.

7hrs

**UNIT- III:**

**Network model** - Networking - CPM - Critical path - PERT - Time Estimates - Critical Path – Crashing. **Waiting line models** - Structure of Model –M/M/1 for infinite Population for Business decisions.

7 hrs

**UNIT- IV:**

**Replacement Models:** Replacement of Items that Deterities gradually –Value of Money change with time – does not change with time –Replacement of items that Fails suddenly – Individual and Group replacement.

7 hrs

**UNIT- V:**

**Simulation** - Types of Simulation - Monte Carlo Simulation. Decision theory - Payoff tables - Decision criteria – Decision trees.

7hrs

**Total Hrs 35**

**Reference Books:**

**National:**

**MBA DEGREE**

**Effective for the students admitted during the academic year - 2018-19**

**SECOND SEMESTER**

**CORE : PRACTICAL: IBM – BUSINESS ANALYTICS**

**Objective:**

- To create report, present data graphically, Analyze and extend reports with report studio.
- To highlight the key capabilities and manage content.

**Unit I**

Overview of Business Intelligence – Business Intelligence Capabilities – Extend BI Enterprise – Examine Cognos Workspace Advanced – Creating reports using Relational Data – Crosstab report – Echart objects – Combined report.

7 hrs

**Unit II**

Dimensional Data – ROLAP data – Member Options – Set Operations – Grouping, Sorting and Filtering of Relational and Dimensional Data – Integrating external Data – Process, Link and Attributes – Analyzing data using charts and graphs.

7 hrs

**Unit III**

Report Studio – Capabilities and Creation of report Studio – Report Development process – Use of check list – Identify the Business Need – Visual Communication Considerations and Techniques – Employing clarity and creating Effective report.

7 hrs

**Unit IV**

Analysis Studio – Tools for investigation – Nest Data in Cross Tabs – Building advanced Cross Tabs – Focussing with Filters – Extending the Analysis

**Unit V**

Case Studies

7 hrs

**Total Hrs 35**

**Reference: -**

This course is Web based and delivered on-line.

**Dr. GR DAMODARAN COLLEGE OF SCIENCE (Autonomous), COIMBATORE  
MBA DEGREE**

**Effective for the students admitted during the academic year - 2018-19**

**SECOND SEMESTER**

**CORE: RESEARCH METHODS FOR MANAGEMENT**

**Objective: To familiarize the students with methodology of research and its application in business management.**

**UNIT – I**

**Introduction:** Concept of Research and Its Application in Various Functions of Management, Types of Research, Types of Business Problems Encountered by the Researchers, Ethics in research. Steps Involved in Research Process. Hypothesis – Qualities of a good Hypothesis – Null Hypothesis & Alternative Hypothesis. Hypothesis Testing – Logic & Importance. Research Design: Exploratory Research Design – Descriptive Research Designs – Experimental Design.

7 hrs

**UNIT – II**

**Measurement:** Concept of measurement– Nominal, Ordinal, Interval, Ratio-Validity and Reliability of the research instrument. Attitude Scaling Techniques: Concept of Scale – Rating Scales viz. Likert Scales, Semantic Differential Scales, Constant Sum Scales, Graphic Rating Scales – Ranking Scales – Paired Comparison.

7  
hrs

**UNIT – III**

**Collection of Data:** Concept of Sample, Sample Size and Sampling Procedure, Various Types of Sampling Techniques, Determination and Selection of Sample Member. Types of Data: Secondary and Primary, Various Methods of Data Collection, Preparation of Questionnaire and Schedule. Qualitative methods of data collection.

7  
hrs

**UNIT – IV**

**Analysis of data:** Coding, editing and tabulation of data; various kinds of charts and diagrams used in data analysis; Application of statistical techniques for analyzing the data, Descriptive statistics-“t” test, z test, Chi-square test, Correlation, ANOVA (Using of Data Analysis Tools like SPSS and Excel).

7 hrs

**UNIT – V**

**Report Preparation:** Interpretation of Data and Report Writing – Layout of a Research Report; Bibliography and Annexure in report; Drawing conclusions; Giving suggestions and recommendations to the concerned persons.

7 hrs

**Total Hrs 35**

**Reference books:**

**National:**

SECOND SEMESTER

ELECTIVE: LEAN MANUFACTURING

**Objectives**

To understand the principles behind lean manufacturing philosophy, and Value Stream Mapping (VSM). To familiarize them with the implementation of various lean manufacturing techniques.

**UNIT – I**

**Benefits of Lean Manufacturing System**

History and modern applications, MRP and their impact, Lean manufacturing model, Kanban Methodology, Continuing evaluation, Strategic Business Analysis.

7 Hours

**UNIT – II**

**Understanding Product, Process and Demand**

Value Stream Mapping - Scope, Selecting parent parts, Lean line, Demand, Documenting process flow, Takt time, Process linking and Balancing. Imbalance, Approach, Resource, Definition, Physical Layout, Designing 5S

7 Hours

**UNIT – III**

**Kanban Strategies**

Process, Single, Multi Card system, Inventory Management, Advantages and Disadvantages. Team Establishment: Commitment, Physical facilitation, Management Structure.

7 Hours

**UNIT – IV**

**Lean Implementation and Milestones**

Software requirement milestones, Understanding process, Product and Materials, Checking, Factory design, Line startup.

7 Hours

**UNIT – V**

**Lean Line management**

Matching customer demand, Customer response policy, Lean line optimization, Resistance to change.

7 Hours

**Total: 35 Hours**

**Reference Books**

**Dr. GR DAMODARAN COLLEGE OF SCIENCE (Autonomous), COIMBATORE  
MBA DEGREE**

**Effective for the students admitted during the academic year - 2018-19**

**THIRD SEMESTER**

**CORE: MANAGEMENT INFORMATION SYSTEM**

**Objectives :**

- a. The course intends to provide the Information Systems knowledge, a business end user needs to know.
- b. It helps students to learn, how to use and manage a variety of information technologies to revitalize business processes, improve managerial decision-making and gain competitive advantage.

**UNIT I : Fundamental concepts of MIS**

Introduction to Information System – System concepts – Characteristics – Components of an Information System – Information System Resources – Information System Activities. Attributes of Information System – Fundamental roles of IS – E-business enterprises – Types of information system-Information System Functions.

7hrs

**UNIT II : Competing with IT**

Fundamentals of competitive strategic concepts-Strategic uses of Information Technology – Value Chain of Strategic IS – Internet based value chains – Identifying E-business and E-commerce strategies. Building a customer focused E-business – Reengineering Business processes – Creating a Virtual Company – Building a Knowledge creating company – Sustaining strategic success using IS.

7hrs

**UNIT III : IT in Business Applications**

Overview of E-Business Applications – Business use of the Internet – The Business value of the internet – Application of Intranets – Enterprise Information portals - Electronic Communication tools- Enterprise Collaboration – Cross functional Enterprise Systems - Enterprise Resource Planning – Customer Relationship Management –Supply Chain Management – Online Transaction Processing .a Knowledge creating company – Sustaining strategic success using IS

7hrs

**UNIT IV : Functional Information Systems**

Functional information System – Marketing Information system – Manufacturing Information System – Human Resources Systems- Decision support system-Decision Structure – Management Reporting alternatives – Online Analytical Processing – Executive Information Systems-Artificial Intelligence – Domains of Artificial Intelligence – Commercial applications – Expert Systems

7hrs

**UNIT V : Data Base**

Enterprise and Global Management of E-Business Technology - Database Management approach – Types of Databases – Database Development – The System approach towards IS development - Computer Crimes – Security Management and E-Business Defenses – Security Measures .

**Total Hrs 35**

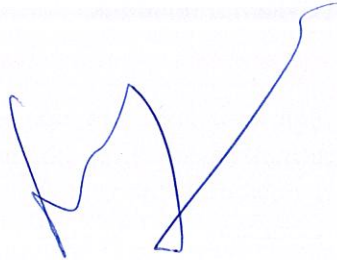

**Reference books:**
